

To: Private Sellers of Breeding Stock

Re: Purchase of Breeding Stock by ABFI for the Producer

The above-named Producer has indicated a desire for ABFI to purchase breeding stock from the Seller. ABFI wished to accommodate this purchase request. ABFI requires clear title on all livestock it purchases for the Producer. To ensure clear title, ABFI requires:

1. An invoice describing the livestock to be purchased from the Seller.
2. A search of the Personal Property Registry (a lien search) to determine if the Seller has any secured financing on the livestock being sold to the Producer. This requires the complete and proper name, address and date of birth of the Seller.
3. A completed form 210 Security Interest Waiver if any security agreements are detected in the PPR search. The Seller and the Lender must complete and sign Form 210 Security Interest Waiver. The Lender should note that they are not waiving their interest in the proceeds of the sale of the livestock, just the livestock themselves.
4. A bill of sale must accompany the completed Form 210 to complete the purchase.
5. For Private Treaty or Self Purchases, an LIS brand clearance must be provided by an LIS Inspector on livestock being sold, either branded or unbranded (Livestock Manifest) prior to payment being made.

Note: ABFI will not purchase any livestock from a private seller without following this procedure.
